

Hop into Spring with Easter-Themed Activities from Kids Academy

www.kidsacademy.mobi

This year Easter falls on April 20th, which is at the height of spring and all its glory. Easter perfectly captures the joy and renewal of spring with its pastel colors, fun family gatherings, and festive traditions like egg hunts and Easter baskets filled with candy.

To help your family get in the holiday spirit, we offer an array of Easter-themed [activities](#) for different ages. Join us as we take a closer look at Easter-themed worksheets, activities, and more from Kids Academy.

Easter Activities for the Littlest Learners

Toddlers and preschoolers are just discovering the meaning and merriment associated with seasonal holidays. The best way to help them build cheerful memories and associations is by singing songs and having fun! Here's a special Easter-themed video that features a catchy song and recognizable character.

Watch on [YouTube](#)

Kids will have a blast watching our platform's cute mascot, Eddie the Elephant, go on a hunt for Easter eggs, only these aren't ordinary eggs! They crack open to reveal bright and colorful birds that dance around the screen before joining Eddie in a parade

following the Easter bunny himself! Watch it a few times to learn the words and encourage children to sing and dance along.

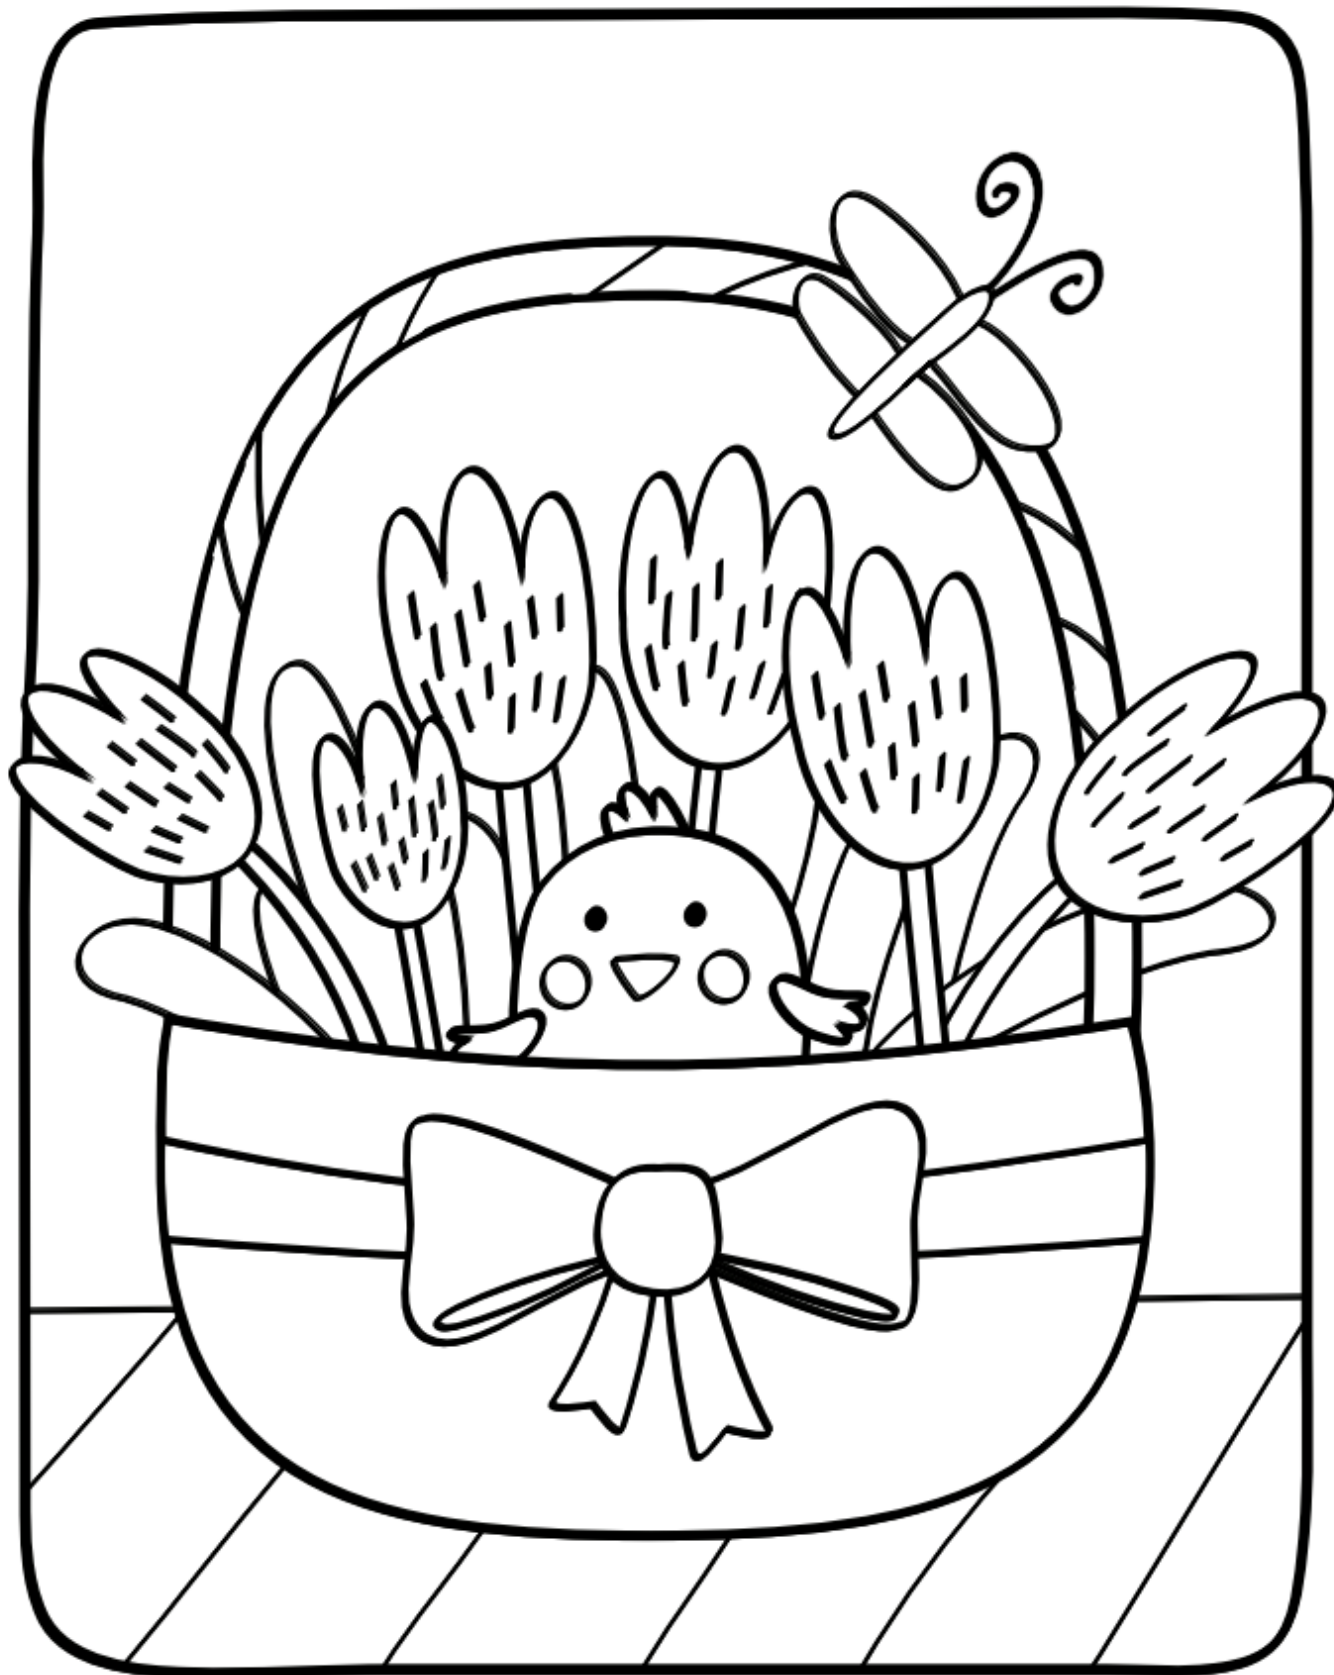

Next, encourage your young learners to explore common Easter symbols, like baby bunnies, chicks, and lambs, while coloring these egg-citing Easter pages.

A Bunny and a Lamb

Chick in the Basket

All our coloring pages inspire creativity while providing images that match the holiday spirit. Help your child select the brightest colors that best represents this vibrant holiday.

Easter Worksheets for Older Kids

It's important to include the bigger kids on the Easter fun, too! As they grow older, grade schoolers continue to find joy and meaning in seasonal holidays, which are lessons they will take with them through the years to come. Kids Academy also offers worksheets that are more suited for learners in grades K-3. These activities are relevant not only to the holiday, but also the skills they are learning in school.

Easter Math:

Adding up to 10

Add the two numbers together and circle the correct answer.

$6 + 0 =$

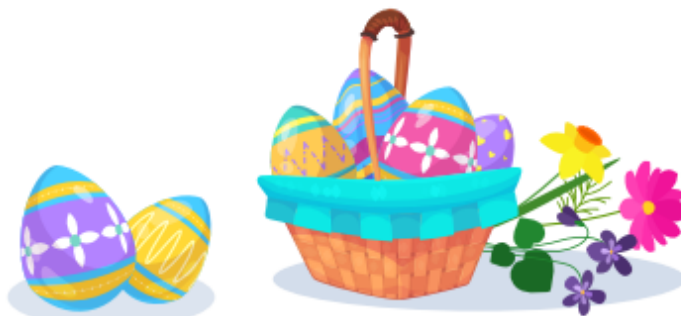

$3 + 2 =$

$5 + 4 =$

$4 + 4 =$

Easter Arrays

Check the 2 equations for each array.
Then circle the correct sum.

$2+2$

$3+3+3$

Easter Math: Division

Solve the division problems and circle the correct quotient.

$$10 \overline{)20}$$

Skip count by the outside number 10 until you reach the inside number 20. Keep track of how many times you skip counted!

$$2 \overline{)12}$$

$$3 \overline{)24}$$

$$1 \overline{)9}$$

$$8 \overline{)32}$$

Each of the worksheets depicted above represent math skills mastered in different grade levels and at different ages. Kindergarteners and first graders will learn to add and subtract simple one-digit problems after learning to recognize and write numbers. As they advance in second and third grade, they will conquer arrays to form algebraic thinking and to form the foundation for multiplication. Finally, in the third grade, they learn to multiply and divide.

No matter what age or grade level your child is at, Kids Academy has Easter-themed activities ready and waiting to fuel your learner's holiday spirit this spring! Find more easter worksheets [here](#).

Easter Activities for All Ages

Apart from springtime fun, Easter is a special holiday that is an important one for many families around the world. Don't forget that Kids Academy also has blog articles centered around teaching children more about the Easter holiday itself. Check out this [article](#) for 5 fun facts about Easterto teach your learners, especially if you are hoping to provide them with more context about this holiday, why it's celebrated, and common traditions associated with it.

For crafty kids looking for even more Easter fun, head over to this [article](#) to find easy yet exciting Easter crafts that they can make at home before the big day.
