

Introducing Kids Academy Summer Camp

www.kidsacademy.mobi

As the school year comes to a close, there has never been a more important time to participate in summer learning. Ordinarily, the summer slide is known to set children back for months, with kids experiencing significant dips in reading and math. But this summer is far from ordinary because students have been out of school since March.

This year, it's crucial that kids are given every opportunity to prevent learning loss and sharpen their skills for the next grade. That's why Kids Academy has developed an innovative summer camp program to support your young learners in subjects across the curriculum.

Teachers and tutors can also use it in their summer sessions as a remediation tool to guard against learning loss from school closures this spring.

Subjects and Skills

Our summer camp program is tailored specifically for children in grades Pre-K through 3rd grade, and lessons cover:

- English Language Arts
- Math
- Social Studies
- Science
- Arts

For each grade, we provide a 2 months' worth of learning, built with hand-crafted lessons and fun activities. All topics include targeted skills that should have been covered in the previous academic year. While working through the program, your child will refocus and sharpen the following skills:

- Early reading skills, vocabulary, and phonics
- Numeracy, early addition, subtraction, money, and geometry
- Local, national, and world culture, community, and civics
- Plants, animals, health, weather, and more

Don't miss your chance to enter Summer Camp at the hottest price! Your kid will have loads of fun being busy with interactive activities all summer long!

Activities

The courses combine over 400+ fun and easy-to-digest lessons that feel more like a game than learning exercises to kids. Such an approach makes your child's summer learning more interactive and exciting while still focusing on reviewing essential concepts. The program includes:

- Fun animated games with voiced guidance
- Interactive quizzes that deliver immediate feedback
- Engaging worksheets and coloring pages
- Animated songs, videos, and storybooks

The program can serve as a great way for kids to refresh what they've learnt, catch up on what they haven't and start the next year strong!
