

Learning Games Now Available in Kids Academy Classroom!

www.kidsacademy.mobi

We're happy to announce the release of our popular math and English games for preschoolers and K-3 students in [Kids Academy's Online Classroom](#)! A big selection of professionally designed learning games from our Talented and Gifted app is now proudly taking its place on the shelves of the virtual Classroom's Library of Resources.

Dear teachers and parents, you're invited to visit our [Classroom](#) and create new interactive lessons for your kids in just a couple of clicks. Use the huge library of learning worksheets, videos, quizzes and newly added games to design quick customized learning spaces. You'll find standards-aligned activities for elementary students on all the core subjects, including math, ELA, science, social studies and more.

The screenshot shows a virtual classroom interface. At the top left, there is a user profile icon with the initials 'MJ'. A notification bubble says '3/3 Great! Share the code with your students.' The main area features a teacher character pointing at a greenboard. The greenboard displays the text: 'Classrooms list Your students must use this code to enter the Classroom: 5945 kidsacademy.com/go Code expires in: 00:59:58 COPY JOIN LINK'. Below the greenboard, there is a section for 'Estimated Classroom time: 14:00 min' and a list of four activities: 1st (3:00 min) Worksheet, 2nd (3:00 min) Worksheet, 3rd (4:00 min) Quiz, and 4th (4:00 min) Video.

Let's have a quick look at all of games teachers can now add to interactive Classrooms and share with their students:

ABC Letter Tracing

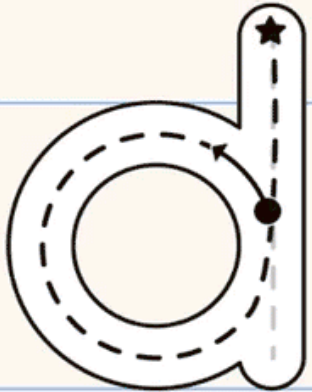

In these alphabet games, students will learn to write uppercase and lowercase letters by tracing them first, and writing them independently as a second step. They'll also be introduced to the basic vocabulary of words starting with each letter.

- Tracing uppercase letters
- Tracing lowercase letters

The word **Apple** begins with the letter **A**.

The word **duck** begins with the letter **d**.

Simple Mazes

These super simple mazes will allow preschoolers and kindergarteners to develop their hand-eye coordination and spatial thinking skills in the jolly company of Toby the Dog.

Tracing Numbers 1-10

Offer your kids this great colourful tracing game to improve their fine motor skills and help them learn how numbers 1-10 are written.

Addition and Subtraction up to 10

Number Problem Labyrinths with Toby

- Addition 1–10
- Subtraction 1–10

In this set of maze games kids will help Toby the Dog solve addition and subtraction number problems by guiding his way through a labyrinth to the correct answers.

Addition and Subtraction up to 20

Number Puzzles with Peter the Penguin

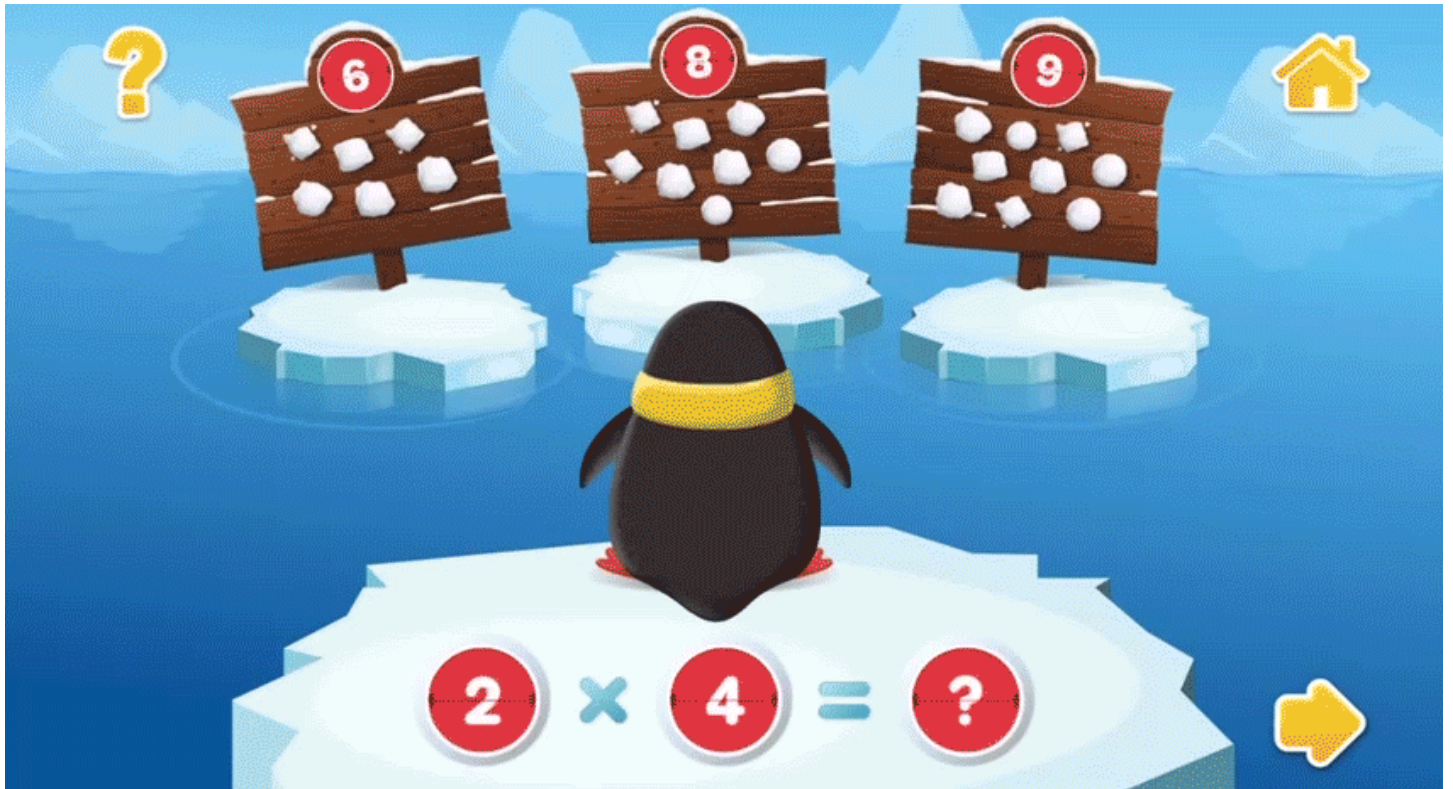

Allow your kids to drill their addition, subtraction, multiplication and division skills while having lots of fun with the goofy penguin jumping through ice blocks in the Arctic!

- Addition 1–20
- Subtraction 1–20

Operations with Numbers up to 100

- Addition 1–100
- Subtraction 1–100
- Multiplication 1–100
- Division 1–100

Operations with Numbers up to 1000

Engage your elementary mathematician in solving 3-digit addition, subtraction and comparison problems in the company friendly aliens!

- Number Comparison 1–1000
- Addition 1–1000
- Subtraction 1–1000

Parts of Speech

In this game kids will read short sentences and identify to which part of speech the highlighted word belongs: verb, noun, pronoun, adverb or adjective.

The collection of games in the Classroom Library will be growing on a weekly basis. Stay tuned and be the first to learn about the new additions to our [Classroom web-app](#)! To find out more about the instant Classroom tool for teachers and schools, read this quick [Classroom Guide](#).
