

Introducing Kids Academy Summer Camp for Grade 3

www.kidsacademy.mobi

If you are a parent of an older child who is a recent or rising 3rd grader, we have a course specifically tailored just for them! Older kids are typically more fluent when it comes to reading and writing, and they tackle increasingly tough concepts across the curriculum.

But due to the recent school closures, chances are, your little learner also missed valuable learning this spring. To avoid any potential learning loss or slide, Kids Academy has you covered with summer camp for 3rd grade!

Subjects and Skills Covered

Our special summer camp course covers all the expected curricular areas, including ELA, math, social studies, and science. What makes it different is the level of complexity; 3rd graders are busy building upon the skills they already learned in school, becoming more

fluent, aware, and knowledgeable about the world around them. Specifically, our course covers:

- Word parts such as prefixes and suffixes
- Grade-level sight words and spelling
- Sentence structure, grammar, and parts of speech
- Reading comprehension and informational texts
- Multiplication, division, and rounding
- Area, perimeter, fractions and data
- US and world history, geography, and government
- Advanced science topics such as Earth science, forces and more!

In-App Activities

We work with experts in early education to help hand craft all activities and games to ensure that they meet the individual needs of students, no matter their age! During in-app use, you can expect to find:

- Engaging games that feature voiced instruction and feedback
- Assessments that offer immediate feedback for remediation
- Interactive worksheets and coloring pages that can be printed or completed in the app
- Animated videos, storybooks and songs to keep kids interested
- Professional video tutorials with real teachers for direct instruction of targeted concepts

Don't let your child start the new school year off behind due to recent school closures! Our summer camp course reviews previously learned concepts and allows your child the chance to preview and practice new content.

What are you waiting for? Don't let the summer slip by; enroll today and take advantage of all that summer camp has to offer!
