

Valentine's Day Fun Facts and Crafts: Videos Inside!

www.kidsacademy.mobi

This Valentine's Day, entertain your kids while teaching them something fun and educational about the holiday. While the history of the holiday is a long and sometimes inappropriate story for the littlest of learners, there are many facts about it that children can relate with and enjoy.

Kids Academy has put together two videos that are perfect to share with your children to get them excited for Valentine's Day. The first focuses on 10 incredibly fun facts about the Valentine's Day, and the second features 5 thoughtful crafts that kids will be excited to make!

10 Fun Facts About Valentine's Day

Did you know that some of the most frequent recipients of Valentine's Day gifts are teachers? It's true! While many folks might assume that most gifts are given to spouses or sweethearts, Americans spend billions of dollars each year on St. Valentine's Day gifts for their kids' teachers. This day is an enormously popular holiday that has inspired cultural traditions, such as giving small paper cards and chalky, heart-shaped candies to friends.
